What Is Going On Tonight
Knights of Pythias Natheaux lodge,
No. 22, meets at 8:07 Main street.

Willimantic is to have a Hoover Dinner. The date set by the committee and others who attended the meeting at the chamber of commerce rooms on Main street, Sunday afternoon, February 13th, Willimantic has raised about \$2,500 of her quota of \$7,500 set for the European relief drive and it is expected that with the money taken in at the dinner the quota will be more than reached.

If it is possible the army on Pleasant street will be secured for the dinner so the plans as made at the Sunday meeting can be carried out. It was first planned to have a regulation Hoover dinner consisting of hardtack, soup, and possibly one other delicacy. This, however, had to be abandoned as the army could not be secured if such a dinner was to be served. The plan is to be carried out as follows: Tickets to be printed and canvassers will cover the city and surrounding towns. These tickets will admit the holder to the army. Those who have not purchased tickets are to be lured to the army by music by local bands. Once within the structure the entertainment of the evening will begin.

If possible the European Relief Committee, and Dean Brown of Yale university will be secured for the speakers. Word of their acceptance or refusal is to arrive within the next few days. If they cannot be secured some other prominent speakers will come. Immediately following the speaking a phantoms will attract the attention of the audience. The committee has planned to have some fifty little children, dressed in ragged and hungry looking faces come crawling, or hobbling into the hall, for a portion of soup and hardtack, such as is fed the starving children of the European Relief Committee. A food sale will take place during the evening and if possible food sales will be held previous to the dinner. The committee plans to ask the purchasers of the food to turn it back to the committee to be auctioned off later in the evening. At the meeting Sunday it was stated that if \$5,000 is to be raised something aside from a straight sale of food must take place.

It was also suggested that a number of rag dolls, dolls representing various European countries, and a big American doll be dressed by local people and auctioned. This immediately met with the approval of John B. Edgerton, exalted ruler of the local lodge of Elks, stated that the lodge will furnish the American doll, and other present offered to furnish dolls of other nationalities.

Presidents of local organizations are to be asked to appoint canvassers in their organizations, to see about furnishing food for the sale. This matter was left entirely in the hands of the women. At the suggestion of Pierre J. Laramie, who offered \$50 worth of food for the sale, plans were made for food sales prior to the dinner.

"The Sevres treaty is categorically specific, and admits of no reservations. It was signed by all the powers, and it must be taken as a final settlement of the Near East question."

"Greece is occupying Smyrna in consequence of a mandate received from the powers through the Sevres treaty. The powers cannot now logically consider destroying that mandate. They would be tearing up a treaty, to use the words of Mr. Lloyd George, which is vital to all humanity."

"Greece is determined to fulfill her mandate to the end. Let the allies in quite minutely into the manner Greece has executed that mandate, and they will learn there is today in Smyrna a degree of tranquility, order and contentment unknown before. For five hundred years the Turks have murdered Christians. During the last year they killed 3,500,000 Greeks alone, and it is unthinkable that the allies would now put the Turks back in Smyrna."

The friendship and good opinion of America is very precious to Greece, and I am sure Americans will protest against any modification of the treaty which would return Smyrna to the Turks. It is the opinion of the allies that the Greek army there should be taken away, the people of the city would be thrown back into their former condition of bondage, subjugation and peril.
